
SETTT FOR SUCCESS: SPECIAL EDUCATOR TECHNOLOGY-BASED TRAINING OF TRAINERS

CEC 2022 HANDOUT

What is SETTT for Success?

Special Educator Technology-Based Training of Trainers (SETTT) for Success is a US Department of Education funded project that supports online professional learning for teacher trainers as they design and deliver quality professional development for teachers of students with the most significant cognitive disabilities. The SETTT for Success project will include a dashboard with resources to support trainers' design of effective professional development (PD), including a PD framework that supports trainer learning through curated online resources, trainer learning modules, online coaching, and a virtual community of practice. SETTT for Success maintains a specific focus on improving professional development for teachers who provide academic instruction for students with the most significant cognitive disabilities. To learn more, visit the SETTT for Success website at <https://settt.atlas4learning.org/>

Yes, you can! We created an example module for you to explore as a part of CEC 2022 to see an example of how the SETTT model has a core emphasis on comprehensive academic instruction for trainers who support teachers of students with significant cognitive disabilities. Please use <https://rise.articulate.com/share/i2-aXmuXjBpxqQCtjxzdKJYrujGGy2PG> to access the module. We are excited to share this portion of our project with you!

May I review a self-directed trainer learning module created for the SETTT for Success project?

How can I keep up with all that's going on with SETTT?

SETTT for Success is a research project that is still in progress. Our next phase begins in Fall 2022. This project is a part of Accessible Teaching, Learning, and Assessment Systems (ATLAS) at the University of Kansas. Check us out at atlas.ku.edu to see what other projects the center is up to!

Follow ATLAS on Twitter to keep up with 5E-SESE and other ATLAS projects: [@atlas4learning \(twitter.com/atlas4learning\)](https://twitter.com/atlas4learning)

You can also contact us at settt@ku.edu. Thank you for attending this session!
